

Accounting for small businesses

Accounting
Invoicing
Sales and Purchase Ledger
Contact Management

Powerful, easy and fun

For Windows and Mac.
Books by HansaWorld is an integrated accounting and contact management software with unlimited scalability straight out of the box. Perfect for small and start up businesses.

Ease of use

Books is easy to use and efficient, allowing you to concentrate on your business, not on bookkeeping. The modern interface helps you easily navigate in the system and by importing the standard chart of accounts, the system is ready to use. After a few hours from installation you will be confident using your new system. It can't be easier than that!

Multi-windowing technology allows you to work in several windows at the same time. You can have a customer dashboard, invoices and even the customer's contact card all open on one screen at the same time.

By using autotransactions you can simplify entering your accounting transactions. It is easy to monitor and control sales, you can create invoices and credit notes using contacts and items registers. Data entry is made simple by lookup tables for customers, dealers, accounts or other information needed. Books includes standard document forms for invoices, credit notes and address labels which you can easily change as you like. Books contains many useful reports, such as VAT report, balance sheet, profit and loss, customer list, nominal ledger and more.

Personal desktop

Books has a unique function that allows the user to create shortcuts to regularly-used functions and external files- giving your immediate access to the areas of Books by HansaWorld that are most important to you.

Calendar and Task manager

The graphical calendar is a perfect tool to help you plan your time as efficiently as possible. Calendar gives an overview of six months but you can also choose to see monthly, weekly or daily overview of your calendar. Your tasks are displayed with coloured staples giving you a graphical overview of your planned activities. There's also a to do list (Task Manager) that helps to remind you what you need to do and when.

Upgrades

All HansaWorld's solutions are designed to be scalable and as your business grows you can easily upgrade to our bigger systems. By signing a maintenance agreement you'll be able to get telephone support and also get all the latest updates of the software from our home page.
